

1 BILL NO. S-88-10- 03

2 SPECIAL ORDINANCE NO. S- 162-88

3 AN ORDINANCE approving the awarding of  
4 Reference #8PKD1252 by the City of Fort  
5 Wayne, Indiana, by and through its  
6 Department of Purchasing and H.M.S.  
7 Foods for the Parks and Recreation  
8 Department.

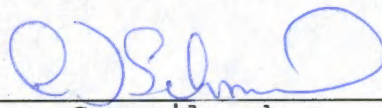

9 NOW, THEREFORE, BE IT ORDAINED BY THE COMMON COUNCIL OF  
10 THE CITY OF FORT WAYNE, INDIANA;

11 SECTION 1. That Reference #8PKD1252 between the City  
12 of Fort Wayne, by and through its Department of Purchasing  
13 and H.M.S. Foods, for the Parks and Recreation Department,  
14 respectfully for:

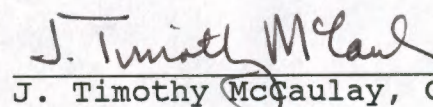

15 the purchase of animal food for the Fort  
16 Wayne Children's Zoo to fulfill their  
17 needs for the remainder of 1988, for the  
18 Parks and Recreation Department;

19 involving a total cost of Thirteen Thousand and no/100  
20 Dollars (\$13,000.00), all as more particularly set forth in  
21 said Reference #8PKD1252 which is on file in the Office of  
22 the Department of Purchasing, and is by reference  
23 incorporated herein, made a part hereof, and is hereby in  
24 all things ratified, confirmed and approved.

25 SECTION 2. That this Ordinance shall be in full force  
26 and effect from and after its passage and any and all  
27 necessary approval by the Mayor.

28   
29 Councilmember

30 APPROVED AS TO FORM  
31 AND LEGALITY

32   
J. Timothy McCaulay, City Attorney

The following food diets are needed to feed zoo animals from now through December 31, 1988.

<u>Item</u>	<u>Needed through Dec. 31, 1988</u>
HMS High Fiber Herbivore Diet 9033	11 tons
HMS Low Fiber Herbivore Diet 9034	16 tons
HMS High Fiber Primate Diet 9021	7,000 pounds
HMS Ratite Breeder 9035	6 tons
HMS Zoo Fowl Maintenance 9037	6 tons

In the following pages will be notes on vendor and product and minimum of ingredients and concentration of nutrients listed for each diet.

Recommended vendor: H.M.S.  
1222 Echo Lane  
Bluffton, IN 46714  
219/824-5157

Note: Even though the amounts are in tons, only small portions of these products can be delivered at a time since animal food stored too long loses vitamins and nutrient potency. Lack of storage also precludes receiving smaller shipments. The grain should be in bags and not in bulk.

#### Justification of HMS Diets:

The HMS diet is the same diet that has been in use at the Fort Wayne Children's Zoo since the opening of the Veldt back in 1976. Originally it was produced by the Andersons then HMS got the rights to the formulas. These diets were formulated after much research by an eminent nutritionist from Michigan State, who remains as a consultant.

HMS is a member of the American Association of Zoological Parks and Aquariums, and makes and sells these diets for those keeping exotic animals. He does not cater to the pet industry. HMS is always concerned with our needs. He stops by and calls to ask how the animals are doing. Any problems are corrected immediately.

Concerning the diets themselves, "the proof is in the pudding," you might say. Our animals are in top notch condition, have good longevity, and produce strong healthy youngsters. Most of this can be contributed directly to the diets. Our continuing use of the same diet for several years is envied by other institutions.

Change in diets can cause palatability problems and obvious medical problems. This diet is the best we can do for our animals, as judged by the curators, veterinarian, but most importantly, the animals themselves.

Mark Weldon  
Veldt Curator

## ZOO FOWL MAINTENANCE 9037

A complete pelleted feed for the broad range of zoo fowl adult such as ducks, swans, geese, guans, pheasants, pea fowl, chickens, turkeys and other birds of this type. There is no antibiotic in this diet.

This diet is a maintenance-flight conditioner and can be used as a grower-developer if necessary.

### INGREDIENTS

Ground Corn, 17% Dehy Alfalfa, Wheat Middlings, Vitamin Premix, Trace Mineral Premix, Soybean Oil, Soybean Oil Meal, 54% Meat Meal, Limestone, Salt, 21% Dical Phos, DL Methionine, Pyridox, Choline, Selenium, Vitamin E, Biotin, Vitamin D3, Thiamine, Folic acid, Calc Propionate.

### Concentration Of Nutrients

## HIGH FIBER PRIMATE DIET 9021

This high fiber diet is designed to be fed as the sole source of nutrition. If other foodstuffs are included in the daily ration, at least 50% on a dry matter basis must come from the High Fiber Primate Diet 9021.

If "Zoo Salad" is to be used, it is suggested that high water, high carbohydrate produce such as bananas, grapes, and oranges be eliminated. Leafy fibrous produce such as kale, celery and lettuce would be the produce of choice.

HMS High Fiber Primate Diet is specific for all primate with the exception of marmosets and tamarins. Two flavors are currently available, banana and natural grain. The product is shipped in 25 lb bags.

It is recommended that this product be stored no more than 90 days at a time.

There is no wheat or wheat by products used in this product and all of the protein sources are vegetable. No animal product is used in the formulation.

### INGREDIENTS

Ground Corn, Dehydrated  
Alfalfa, Corn Gluten, Soybean  
Meal, Soybean Oil, Ground  
Soybean Hulls, Limestone, Calc  
Iodate, Zinc Oxide, Salt,  
Manganous Oxide, Copper  
Sulfate, Iron Sulfate,  
Dicalcium Phosphate Choline  
Cl, Vitamin A, Selenium, Cal  
Pan, Niacin, Riboflavin,  
Vitamin E, Vitamin B12,  
Biotin, Vitamin D3, Thiamine,  
L-Lysene, Beet Pulp, Vitamin  
C, Sugar

# LOW FIBER HERBIVORE DIET 9034

A complete pelleted feed that supports satisfactory growth, reproduction and lactation. This diet is designed to be fed free choice as the sole ration to all exotic ungulents and selected marsupials such as kangaroo and wallabies during cooler seasons or cycles of life when higher energy intake is indicated. The basic difference between the High Fiber Herbivore 9033 and this diet is that the Low Fiber Herbivore 9034 is .08% higher in protein and 104.443 Cal/kg higher in energy. It is possible to switch from one of these diets to the other with little or no problem with digestion upset.

## INGREDIENTS

Processed Grain By-Products,  
Molasses Products, Plant  
Protein Products, Dehydrated  
Alalfa preserved with BHA,  
Vegetable Oil, Vitamin A

DIGEST SHEET

TITLE OF ORDINANCE: Special

*J-88-10-23*

DEPARTMENT REQUESTING ORDINANCE: Purchasing

SYNOPSIS OF ORDINANCE: An ordinance approving the award of Reference No. 8PKD1252 with respect to the purchase of animal food for the Fort Wayne Children's Zoo to fulfill their needs for the remainder of 1988. The cost reflects the most responsible vendor.

EFFECT OF PASSAGE: To maintain a consistent, on-going program of proper animal nutrition which requires a constant availability of high quality ingredients. These foods are used for daily feeding of zoo animal collection.

EFFECT OF NON-PASSAGE: Animals will have no food to eat, or they will be fed compromised diets.

MONEY INVOLVED: H.M.S. \$13000.00

SOURCE OF FUNDING: Park Department  
Fund Line: 121-121-Z200-4242
